

Bishal Sharma

Aspiring machine learning engineer passionate about applying artificial intelligence to solve real-world challenges. Seeking an internship opportunity to leverage my skills in natural language processing, neural networks, and data analysis while contributing to innovative projects.

TRAINING/CERTIFICATIONS

Machine Learning Specialization

Coursera

EDUCATION

Computer Engineering

IOE Purwanchal campus / Dharan / April, 2021 - Present

PROJECTS

IMDB Sentiment Analysis

Built a model on imdb datasets to analyze imdb review .

Quora_duplicated_qsa_detector

Built a model that detect the two different question are same or not .

sms-email-spam-detector

Built a model to detect the particular sms is spam or not .

Facial Skin detection

Built a model to detect facial skin type (dry, oily, normal and acene) for minor project

SKILLS

- Python
- Machine Learning:
Supervised/Unsupervised
learning, Regression,
Classification
- Natural Language Processing:
Sentiment analysis,
Tokenization, Text preprocessing
- Libraries & Tools: TensorFlow,
Scikit-learn, NumPy, Pandas,
Matplotlib
- Version Control: Git, GitHub
- Soft Skills: Team collaboration,
Problem-solving, Critical thinking
- Little bit web development
